To Whom it May Concern:

We have been using Eye Spy Spotter services for the past few years and with the service and results that are critically important to our business operations. Eye Spy Spotter Service has always provided us with in depth and detailed reports that cover areas pertaining to our service, reliability, employee performance, food and beverage quality, cleanliness and operations of the venues, as well as spotting integrity issues.

Their reports are very detailed and thorough compared to previous services we had used in the past. Their reports have more than paid for themselves many times over in analyzing proper service and customer impressions, and analyzing any costly integrity issues, or methods of operations that could potentially open up the ability for dishonest conduct.

We continue to use them at both venues.

Cordially,

Thomas Anderson
