

We have been extremely pleased with the services of Eye Spy Spotter. Michael and his team are always very professional and handle each report with care and detail. They have been very responsive in catering to our franchise system's specific needs nationwide. They have taken the time to make sure that their agents are knowledgeable of our specific training standards and points of service. Our Tilted Kilt Owners (Franchisees) are typically shocked, as well as, pleased when they see the length and incredible detail of the reports. Eye Spy Spotter has been a huge asset in our Franchise Operation and we would like to personally thank them for their continued exceptional service.
